Compliance & Integrity: Adherence to policies/procedures, risk awareness, ethical judgment, data confidentiality

Operations: Financial transaction processing awareness, accurate documentation, inventory control

Technology: Microsoft Office Suite (Word, Excel, Outlook), data entry, recordkeeping systems

Core Strengths: Verbal & written communication, time management, team collaboration, professionalism

EXPERIENCE

NGEN LLC — Largo, MD

June – September 2022

IT Help Desk Intern

- Served as a primary point of contact for internal clients, resolving service issues promptly and professionally while escalating complex cases through appropriate channels.
- Executed accurate documentation and maintained organized records in accordance with company procedures, mirroring compliance-driven workflows.
- Identified and communicated service needs to the appropriate team members, demonstrating initiative in supporting cross-functional operations.

WSSC (Washington suburban sanitary commission) — Laurel, MD

June – August 2026

Platform Technician Intern

- Provided Identity and Security Protection tasks
- Conducted Microsoft Entra ID security audits using Microsoft Graph API and PowerShell to inventory application registrations, analyze service principals, identify expired credentials, and support identity governance reviews.
- Developed security reporting and documentation by analyzing identity data, MFA/SSPR adoption, sign-in logs, and access information to support IAM, compliance, and enterprise security initiatives.
- Assisted with security implementation projects by evaluating SSO, RBAC, encryption requirements, and creating technical documentation, run books, dashboards, and presentations for stakeholders.
